Ambient Light Sensor

ALS2-420, -5V

\$50

Power = +10-28VDC Red(+) Black (-)

Leads = 6" long

Useful for:

- Security Applications
- Night Illumination Control
- Access Control
- HVAC Applications
- Process Control

Light output (White)

Approximately 1-1000 Lux

Irradiance (mW/cm²)

0.02 to 6 (twilight to cloudy sun)

Features:

Two Mounting Nuts

Outdoor winter applications may require a shroud to prevent ice and snow accumulation.
